TOWN CLERK'S OFFICE SEEKONK, MASS. RECEIVED

TH 86 (To be provided by DEGE)

Seekonk

Gerald Carney

# **Notice of Intent** Under the Massachusetts Wetlands Protection Act, G.L. c. 131, §40 **Application for a Department of the Army Permit**

1. Location: Street Address North Wheaton Avenue	ignor brook
Lot Number Plat 4 Lot 235	Seminary and a seminary
2. Project: Type Fill Description The applicant wish	
a driveway across a small brook to gain access to a	proposed
single family residence.	
3. Registry: County Bristol County No. Current Book 2782	& Page 205
Certificate (If Registered Land)	reconstruction of a policy of
4. Applicant Gerald Carney	Tel. 543-3561
Address 76 Beach St., Foxboro, Mass.	Squed M
5. Property Owner Francis Dubreuil, Sr. et. als.	Tel. <u>724-2886</u>
Address 229 Vine St., Pawtucket, R.I.	
	Tel. <u>434-8880</u>
Address 1150 Pawtucket Avenue, Rumford, RI 02916	
7. Have the Conservation Commission and the DEQE Regional Office each been so hand delivery, 2 copies of completed Notice of Intent, with supporting plans and	ent, by certified mail or documents?

8. Have all obtainable permits, variances and approvals required by local by-law been obtained? Obtained: Applied For: Not Applied For: Sewage disposal building permit 9. Is any portion of the site subject to a Wetlands Restriction Order pursuant to G.L. c. 131, §40A or G.L. c. 130, §105? Yes 🗆 No 🖄 10. List all plans and supporting documents submitted with this Notice of Intent. Identifying Number/Letter Title, Date Exhibit A Site plan, Seekonk, Mass. for Francis Dubreuil, Sr. et. als. by Caputo and Wick Ltd. 8/7/86 11. Check those resource areas within which work is proposed: (a) Duffer Zone (b) Inland: ☐ Bank\* Land Subject to Flooding, □ Bordering Vegetated Wetland\* Borderina Land Under Water Body & Waterway\* Isolated (c) Coastal: ☐ Land Under the Ocean\* Designated Port Area\* ☐ Coastal Beach® ☐ Coastal Dune Barrier Beach Coastal Bank □ Rocky Intertidal Shore\* ☐ Salt Marsh\* ☐ Land Under Salt Pond® Land Containing Shellfish\* ☐ Fish Run\*

TOWN CLERK'S DEELE

<sup>\*</sup>Likely to involve U.S. Army Corps of Engineers concurrent jurisdiction. See General Instructions for Completing Notice of Intent.

#### Part II: Site Description

indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe existing site conditions.

### Part III: Work Description

Indicate which of the following information has been provided (on a plan, in narrative description or calculations) to clearly, completely and accurately describe work proposed within each of the resource areas checked in Part I, item 11 above.

Identifying Number/Letter (of plan; narrative or calculations) Planview and Cross Section of: Structures (such as buildings, piers, towers and headwalls) 11 Drainage and flood control facilities, including culverts and open channels (with inverts), dams and dikes 11 Subsurface sewage disposal systems & underground utilities 11 Filling, dredging and excavating, indicating volume and composition of material None Compensatory storage areas, where required in accordance with Part III, Section 10:57 (4) of the regulations Other Point Source Discharge Exhibit A Description of characteristics of discharge from point source (both closed and open channel), when point of discharge falls within resource area checked under Part I, item 1.1 above, as supported by standard engineering calculations, data and plans, including

but not limited to the following:

- 1. Delineation of the drainage area contributing to the point of discharge;
- 2. Pre- and post-development peak run-off from the drainage area, at the point of discharge, for at least the 10-year and 100-year frequency storm;
- 3. Pre- and post-development rate of infiltration contributing to the resource area checked under Part I, item 11 above;
- 4. Estimated water quality characteristics of pre- and post-development run-off at the point of discharge.

#### Part IV: Mitigating Measures

- 1. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
  - (a) All measures and designs proposed to meet the performance standards set forth under each resource area specified in Part II or Part III of the regulations; or
  - (b) why the presumptions set forth under each resource area specified in Part II or Part III of the regulations do not apply.

Coastal Resource Area Type:  Inland Stream	Identifying number or letter of support documents
Staked hay bales will be placed as shown on bit A prior to construction and will be mainned in place until construction is complete and loam and seed has been stabilized. After cultas been installed in the stream rip-rap will hand placed and all slopes will be loamed and ded.	Exhibit A

0	Coastal Inland	Resource Area Type:	Identifying number or letter of support documents
			Management 1
			* :

- 2. Clearly, completely and accurately describe, with reference to supporting plans and calculations where necessary:
  - (a) all measures and designs to regulate work within the Buffer Zone so as to insure that said work does not alter an area specified in Part I, Section 10.02(1) (a) of these regulations; or
  - (b) if work in the Buffer Zone will alter such an area, all measures and designs proposed to meet the performance standards established for the adjacent resource area specified in Part II or Part III of these regulations.

Coastal Resource Area Type Bordered By 100-Foot Discretionary Zone: Stream	Identifying number or letter of support documents
Runoff from the site will be from one single family residence and the proposed driveways Staked hay bales will be maintained in placto insure against siltation of the stream. No fill will be placed within 50 feet of the stream except at the proposed culvert.	e e
	1

## Part V: Additional Information for a Department of the Army Permit

1. COE Application No. (to be provided by COE) (Name of waterway)

3. Names and addresses of property owners adjoining your property:

- 4. Document other project alternatives (i.e., other locations and/or construction methods, particularly those that would eliminate the discharge of dredged or fill material into waters or wetlands).
- 5. 81/2" x 11" drawings in planview and cross-section, showing the resource area and the proposed activity within the resource area. Drawings must be to scale and should be clear enough for photocopying.

Certification is required from the Division of Water Pollution Control before the Federal permit can be issued. Certification may be obtained by contacting the Division of Water Pollution Control, 1 Winter Street, Boston, Massachusetts 02108.

Where the activity will take place within the area under the Massachusetts approved Coastal Zone Management Program, the applicant certifies that his proposed activity complies with and will be conducted in a manner that is consistent with the approved program.

Information provided will be used in evaluating the application for a permit and is made a matter of public record through issuance of a public notice. Disclosure of this information is voluntary: however if necessary information is not provided, the application cannot be processed nor can a permit be issued,

I hereby certify under the pains and penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents and supporting data are true and complete, to the best of my knowledge.

Signature of Assistant ONNER Signature of Applicant's Representative Date

"Exception to ENG Form 4345 approved by HQUSACE, 6 May 1982".

1 MAY 82

document centains a joint Department of the Army and State of Massachusetts application permit to obtain permission to perform activities in United States waters. The Office of Management and Budget (OMB) has approved those questions required by the US Army Corps of Engineers. OMB Number 0702-0036 and expiration date of 30 September 1983 applies". This statement will be set in 6 point type.
